

AMPLIMESH INTRUDAGUARD 10 YEAR SECURITY SCREEN WARRANTY

Because we think peace-of-mind is an important part of any security screen purchase, your new Amplimesh® IntrudaGuard® Security Screen comes with a 10-year warranty.

Which shouldn't be surprising as IntrudaGuard® is made for Australian conditions installed by Amplimesh® trusted experts.

We hope you enjoy your Amplimesh® IntrudaGuard® Security Screen for many years to come.

CARE AND MAINTENANCE

The finishes that are applied to Amplimesh® products are of high quality and are extremely durable and weather resistant. Like all fixtures around the home some maintenance is required to preserve the original appearance of the product.

Anodised Aluminium

Cleaning anodised aluminium is simple. Surfaces should be kept clean by prompt removal of all dust, dirt, grime and any foreign matter using clean water and a small amount of mild detergent. Do not under any circumstances use any abrasive type cleaning agent (Ajax or similar) or cleaning material (such as steel wool) as it will damage the anodised surface. Thoroughly wash off any residue of detergent with clean water.

Powdercoated Surfaces

Deposited grime absorbs moisture and holds it against the powder coated surface, damaging the coating. Surfaces should be kept clean by prompt removal of all dust, dirt, grime and any foreign matter using a soft sponge with clean water and a small amount of mild detergent. Thoroughly wash off any residue of detergent with clean water to avoid deterioration of the coating which will occur as a result of soap deposition. Do not under any circumstances use any abrasive type cleaning agent (Ajax or similar). If small scratches occur, they can be buffed out using a good quality car polish. Care must be taken to ensure the coated surface is not removed.

Frequency

Frequency of cleaning is largely dependent on the location of the building. In most circumstances, cleaning may be carried out every 3-4 months. Amplimesh® products installed close to more severe conditions such as marine or industrial environments should be cleaned every 2-4 weeks.

Register
